What might I see in Spring?

Key Knowledge

- To know and talk about features of objects in my environment for example plants, animals and natural/ found objects (linked to Spring).
- To recognise that buds and leaves begin to develop in Spring and some animals are born.
- To recognise similarities and patterns in the natural environment such as a life cycle.
- To understand that we can use our 5 senses to explore Spring.
- To understand what a plant needs to grow.

Characteristics of Effective Learning

- To show curiosity about objects, events and people
- To use senses to explore the world around me
- To make links and notice patterns in my experience
