MRS VAREY'S MESSAGE

WEEKLY MESSAGE

Welcome back, and Happy New Year! The children have settled quickly back into their learning, and it's been wonderful to see their enthusiasm as we begin the new term.

Thank you for your support in getting your child to school this week. It has been a tricky week with the icy weather and the juniors being closed for two days so we appreciate the effort.

As we go into the new term, please can I just emphasise the importance of good attendance and punctuality. Children who attend school every day and arrive on time achieve significantly better learning outcomes. Missing even a few days can create gaps in learning that are difficult to catch up on. Please support us with improving our attendance.

UPCOMING EVENTS

OUR LEARNING

NURSERY

Nursery have had a great first week of Spring term!

Our new starters have settled in brilliantly and we have all enjoyed learning about the season of Winter, using our senses to describe what we can see, hear and feel and creating a Winter collage. We have also begun our new topic, 'Animal Magic'. Together, we have explored different animal patterns and created some of our own using stamps to make prints.

MURPHY

Welcome back Murphy class and Happy New Year to all our families. The children have settled straight back into the swing of things this week, learning all about 'Zero, Zero, Superhero' in Maths. During our literacy lessons, we have started our new book, 'Lets all creep through crocodile creek' - which is all about three friends going on a journey. We have a few journeys planned for this half term, so keep on eye on newsletters, Facebook and messages for updates. In PE we were travelling like mini-beasts and RE told us the story of a baby who went on a special journey down the river!!

OUR LEARNING

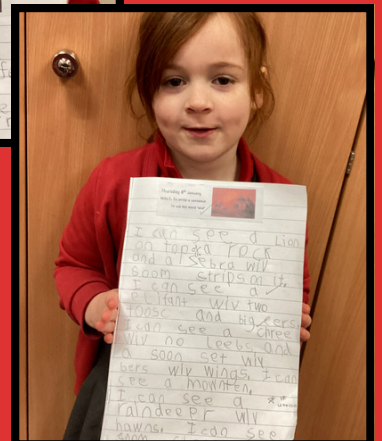

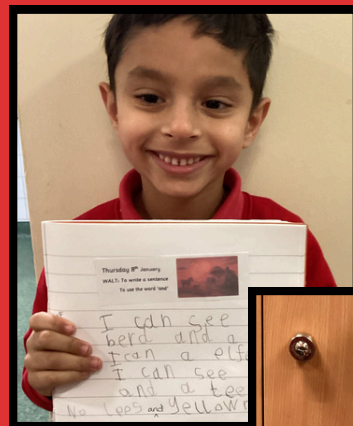

DONALDSON

Donaldson Class have had a very busy and fun start to the New Year. In literacy, we have started to look at our new book 'Let's all Creep through Crocodile Creek'. The children are intrigued to find out where our new friends, Tortoise, Rabbit and Mouse get to on their journey. In maths we have been looking specifically at the number 0 as well as subitising numbers up to 5. In PE this week, the children were beginning to move their bodies like mini beasts. We slithered like caterpillars, jumped like grasshoppers and fluttered like butterflies.

BRIGHT

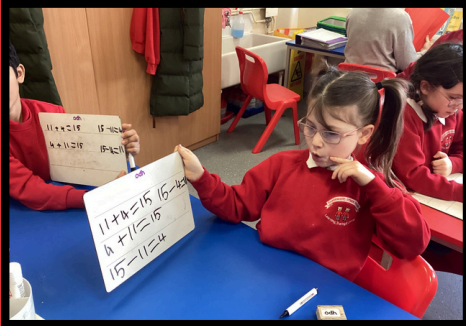

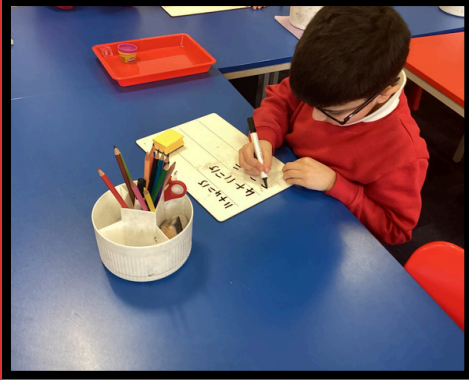

Bright class have been working very hard on this first week back after the holiday. We have been looking at images of Africa and animals from this term's book, The Lion Inside. We have started looking at slider mechanisms in Design Technology and which directions they move. We have also really enjoyed our first forest school session of the year.

OUR LEARNING

JEFFERS

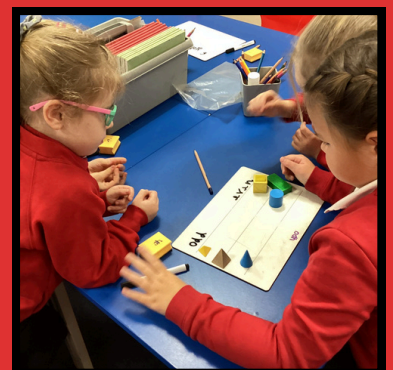

Welcome back Jeffers Class! What a great start to 2026. We have been looking at numbers up to 100 in maths, recapping our number bonds to 10 so that we can use our knowledge to complete number bonds to 100.

In Art we have used different mark making techniques and been experimenting with the amount of pressure we use to create dark and light marks.

We have used shading to create shadows making our shapes look 3D.

PERCIVAL

We have have a great start back to school this week in Percival class. We have looked at our new text in English and we have predicted what we think might happen. In Maths we have been counting faces, edges and vertices of 3D shapes. We enjoyed torch Tuesday and thought about successes we have had in PSHE. We also had our talk about swimming and can't wait to go to the pool next week

OUR LEARNING

BRIDGE CENTRE

After a long and restful break, we have come back into school and hit the floor running, making it feel like we have never been off at all. We have been continuing with our Core Skills in the mornings, then our Nurture sessions and targetted interventions, in the afternoons. Well done everybody for a fabulous first week back!

RAINBOW ROOM

The children have all come back settled and we have been getting back into our routine. This week in Rainbow Room we have started our 'winter' topic and we looked at the change in weather, trees and the clothes we need to wear to keep warm. In maths, we have been counting objects and pictures and matching it to the correct numeral. We have also been practising putting the numbers back in order.

Autumn Term Attendance Superstars

Well done to the children below who achieved 98%
and above in their school attendance in Autumn Term.
