

Spring 2 - Homework Grid

Communication, Language and Literacy

Talk to your grown-up about dinosaurs. What do you know about them? Can your grown up tell you anything about them? Draw a picture of a dinosaur and bring it in to show your friends.

Personal, Social and Emotional

Draw and label a plate of food that you think is 'healthy'. Try to remember that you need some meat, vegetables and protein such as pasta or potato (but how much of each?)

Bring your drawing into school to share.

Writing

Write some descriptive words or short sentences about the dinosaurs on these pictures

See if you can use a capital letter and always remember your finger spaces.

Maths

Hunt around your house for 5 or 6 things - all that have different lengths.

Arrange the items in order from shortest to longest then take a photograph to bring into school

Creative

Have a go at making your own 'Easter Bunny', maybe give them a name too. Bring them into school and introduce them to your friends.

Outdoor

As spring starts to 'spring', on your trips to the park or whilst you're out and about - see if you can take photographs of new spring flowers, baby lambs, trees getting new leaves and send them into school.
